<p>Further comments:</p>	<p>Thank you!</p> <p>I feel that the delivery of the session would be better if there was a separate online session to the in person session. It was difficult to engage in a meaningful way with participants and the presenters and it was hard to even see faces of the people in the room. At times it felt like two different sessions. I didn't feel that feedback or input I gave was really acknowledged or appreciated during the first day which led to me being much quieter on the second day. This could be done better if there was just the presenters online in a room as the engagement would be better. It is also a long time to sit over two days at in front of a camera. The chat function however online was utilised by the online participants and was a great way to share and communicate during the sessions.</p> <p>Felt good to be in a space with such knowledgeable facilitators. Thank you.</p>

“ (I most liked) The ability to talk with people in similar circumstances and see how they approach an issue.
